VERDICT OF GUILTY

United States Senator J. R. Burton Convicted of Accepting Money For His Influence.

SUMMARY OF THE EVIDENCE GIVEN

Burton Accepted a Position as Counsel For a Concern Under Scrutiny of the Post Office Officials.

Numerous Letters Showed That He Was Using His Influence to Prevent the Issuance of a Fraud Order Against the Firm.

St. Louis, March 29.—United States Senator J. Ralph Burton, of Kansas, was found guilty Monday of accepting money from the Rialto Grain and Securities Co. for his influence in their behalf before the post office department.

The evidence adduced against Senator Burton may be summarized as follows:

In November, 1902, he accepted a proposition to become general counsel of the Rialto Grain and Securities Co., a concern whose operations at the time were under the scrutiny of post-office officials.

Burton demanded \$2,500 for his services, but he was satisfied to be paid in monthly installments of \$500 each.

Soon after his employment it developed that the federal grand jury was investigating the Brooks Brokerage Co., with which Maj. Hugh C. Dennis, president of the Rialto Co., had been associated.

Numerous letters written by Burton showed that the senator was using his influence to prevent the issuance of a fraud order against the Rialto Grain and Securities Co.

Burton submitted regular reports to the Rialto people, telling them how matters were progressing at Washington, advising them of complaints filed at the post office department, and closing with the assurance that "if you look after things at your end of the line, I will attend to matters here."

Testimony of post office officials show that Senator Burton had told them he intended to practice before the department; that he had lost \$70,000 in the panic, and desired to make some money as a practicing lawyer.

Washington, March 29.—Reference to a compilation of senate election cases from 1789 to 1903 shows no expulsion of a senator for conviction of a crime, though there have been instances where members of the senate have resigned before action on charges. The first expulsion from the senate for any cause was that of E. M. Blount, who was a senator from Tennessee, 1796 to 1799. A special investigating committee found him guilty of the authorship of a letter capable of various constructions but which, in his own mind, according to the letter, appeared to be "inconsistent with the interests of the United States and Spain." He was found guilty of high misdemeanor and a resolution of expulsion was adopted by a vote of 25 to 1.

For complicity in the Burr conspiracy an action was brought to expel John Smith, a senator from Ohio from October 25, 1803, until he resigned April 25, 1808. Indictments had been found against Senator Smith in the courts of Virginia; but he was not convicted. When the resolutions for expulsion were presented to the senate the vote, after long debate, resulted 19 yeas and 10 nays. Two-thirds of the senate not concurring therein, he was not expelled, but about two weeks later he resigned.

A number of southern senators were expelled when their states seceded.

Jesse D. Bright, senator for Indiana from March 4, 1845, to February 5, 1862, was expelled on the charge of disloyalty to the United States after it was shown he had written a letter to Jefferson Davis, president of the confederacy, introducing a Texan, whose business was to dispose of "An improvement in fire arms."

Famous Necklace Stolen.

Paris, March 29.—The famous "Marie Antoinette" necklace of Princess Alice de Bourbon, valued at \$160,000, has been stolen. It was delivered to a pretended messenger, who presented a forged order for it at a jeweler's shop, where it had been left for safety.

Uxoricide and Suicide.

Washington, March 29.—Charles G. Forster, who had been clerk at the white house, and brother of Rudolph Forster, one of the president's two assistant secretaries, killed his wife and committed suicide by shooting Monday morning.

Louisville, Ky., March 29.—Edward F. Goodwin was granted a divorce Monday from Grace O'Neill Goodwin on the ground of abandonment. Mrs. Goodwin is a daughter of Jos. O'Neill, the Pittsburgh coal king.

A REMARKABLE WILL.

It Was Written By the Late Col. C. M. Strader, U. S. A.

Louisville, Ky., March 29.—Copies of a remarkable will left by Col. C. M. Strader, U. S. A., retired, who died March 6 at St. Joseph's hospital in Philadelphia, have been received by several prominent men of Louisville, friends of the dead man.

Col. Strader, after directing that all his debts be paid, requests that his body be cremated at Philadelphia, and the ashes taken to Louisville, his birthplace, there to be scattered on the waters of the Ohio river.

"If after this process," reads the will, "the Angel Gabriel, for whom I have all due respect, can with his trumpet raise me from the dead, he is a darling, and I will take off my shadowy hat to him. I will pass away believing in no other deity than that which is specified by Pope as being 'the first great cause—least understood,' believing that my first duty is to my fellow man and that he who lives this life in justice to his people and follows the precepts of Him who said, 'Love thy neighbor as thyself' has nothing to fear from the hereafter—no matter what it is."

"With best wishes to you all and 'drink hearty.'"

Col. Strader graduated from West Point before the civil war and was one of the few southern officers who remained loyal to the union. After the war he saw hard fighting in several Indian campaigns, serving with Custer and other well-known commanders. Prior to his death he held a position at the Schuylkill arsenal.

FOUGHT DUEL ON TRAIN.

Conductor Mortally Wounded and City Marshal Shot Three Times.

Bergen, Ky., March 29.—Queen & Crescent Conductor Beauchamp was Monday night taken to Lexington in a dying condition, and City Marshal Will Daniels lies at his home here with three bullet holes in his arm, the result of a duel with pistols on the train of which Beauchamp was conductor.

The affair occurred shortly after 7 o'clock Monday evening, and is the result of a contention between the municipality of Bergen and the Queen & Crescent train crews.

Recently several trainmen have been arrested and fined for the violation of city ordinances providing against the blockading of streets by waiting trains. Several days ago a train under charge of Conductor Beauchamp, it is claimed, laid at a crossing for a longer time than the ordinance permits, and a warrant was therefore issued for the conductor's arrest. The instrument was placed in the hands of City Marshal Will Daniels to serve, and he has since laid for Beauchamp.

Monday evening, when the train pulled in under charge of Beauchamp, the marshal was notified, and, boarding it, attempted to arrest the conductor. The train started, and the marshal insisted that it be stopped. Then the shooting commenced.

George Miller Is Ill.

Lexington, Ky., March 29.—A large crowd which had congregated at the L. & N. depot to see the departure of George Miller, convicted gambler, who was to go to the penitentiary with other prisoners, was sadly disappointed, as the prisoner was unable to leave his bed in the hospital department of the jail.

Slept With a Corpse.

Jackson, Ky., March 29.—L. C. Ford, of Louisville, dealer in curly walnut stumps, was found dead in bed at the Hoard hotel. In the same bed, lying by the side of the corpse was Cain Polly, one of his employees, wrapt in deep slumber. The fright on awakening prostrated Polly.

Now Have Light.

Ashland, Ky., March 29.—The Camden Interstate railroad strike situation is unchanged except that the company is now furnishing lights by the employment of non-union engineers and firemen. Ironton, Ashland and Huntington now have lights after five nights of darkness.

Wanted in Kentucky.

Newport, R. I., March 29.—Private William Lattrell, of the 11th coast artillery company, was arrested as a fugitive from justice, on information furnished by the sheriff of Pulaski county, Ky., that the soldier is wanted there for murder.

After a Pardon For Miller.

Lexington, Ky., March 29.—Renewed efforts are being made by the friends of George Miller, the convicted gambler, to obtain executive clemency in his behalf. Gov. Beckham has persistently refused to interfere in the case.

Fifty Men Are Discharged.

Ashland, Ky., March 29.—Fifty wire drawers, employed by the Norton iron works, were paid off and discharged Monday morning. The men say they were dismissed because of their refusal to do extra work.

FIRST LAND BATTLE

The Russian War Office Expects That It Will Take Place in About a Week.

WILL BE IN THE PING YANG REGION

First Japanese Army Has a Total Strength of 70,000 Men Including Cavalry and 180 Cannon.

It is Reported That the Vladivostok Squadron Has Returned to Port With Several Prizes, Including a Japanese Warship.

Paris, March 29.—The Echo de Paris St. Petersburg correspondent says the war office general staff expects that the first land engagements in the far east will take place in about a week. It is estimated, he adds, that Gen. Kurokit, commanding the first Japanese army in the Ping Yang region, has a total strength of 70,000 men, including a brigade of cavalry and 180 cannon.

The Petit Journal's St. Petersburg correspondent says: "I learn that the fleet to sail to the far east about June 15 will consist of eight battleships, 11 cruisers and torpedo boat destroyers, the number of which has not yet been fixed. Command of the fleet will be entrusted to Adm. Rojestvensky and Grand Duke Alexander Michaelovitch, who will receive sealed personal orders from the emperor to be opened at sea."

The St. Petersburg correspondent of the Petit Parisian says it is reported that the Vladivostok squadron, under the command of Capt. Reitzenstein, has returned to Port Arthur with several prizes in tow, including a Japanese warship.

"It is certain," says the St. Petersburg correspondent of the Matin, "that the Russian cruiser Boyarin was blown up by touching a Russian torpedo eight days after the torpedo transport Yonsei was blown up by accidentally striking a mine at Port Arthur. Even if this news is not confirmed the fact that the cruiser has not been mentioned as partaking in the recent operations is sufficient evidence. It is not known since the death of Capt. Stepanoff, commander of the Yonsei, where the torpedoes have been placed and hence it is impossible for Russian ships to approach Dainy, where there are known to be many."

MILTON'S PARADISE LOST.

The Manuscript Has Been Sold to An American Collector.

London, March 29.—It is announced that the manuscript of Milton's "Paradise Lost," which was offered for sale at public auction January 25, but which was withdrawn because the reserve price of \$25,000 was not offered, has now been sold to an American collector, whose name and the amount paid are not disclosed.

The Daily Telegraph editorially expresses regret that the heirloom was not preserved for the British nation and says: "Let us be thankful that Westminster Abbey and St. Paul's cathedral are not portable, or otherwise they would be purchased by an American millionaire."

DEATH OF COL. H. H. CARPENTER.

He Was One of the Survivors of the Famous Iron Brigade.

New York, March 29.—Col. Hiram Henry Carpenter, an inventor of electrical devices, died here Monday night of Bright's disease. Col. Carpenter was one of the survivors of the famous iron brigade of the union army in the civil war. He served in it as a captain and afterward was promoted to the rank of colonel, commanding during the later years of the rebellion of the 20th New York cavalry.

Girl Charged With Forgery.

Philadelphia, March 29.—Miss Nellie Maguire, daughter of Richard Maguire, a former ink manufacturer of New York, was arrested Monday and held in \$10,000 charged with forgery. She will be given a further hearing on April 5.

Utility of Life Saving Devices.

Washington, March 29.—Senator Carmack presented a resolution asking that the inter-state commerce commission be directed to report to congress the utility of the various life saving devices used as railroad appliances.

Pleaded Guilty to Embezzlement.

Paris, Tex., March 29.—S. J. Spotts, former cashier of the First national bank at Petty, pleaded guilty in the federal court to the charge of embezzlement. Judge Bryant proceeded at once to pass sentence of five years on him.

IN THE CONGRESS.

Debate on Civil Sundry Bill Took a Wide Range in the House.

Washington, March 29.—Senate—The senate Monday for three hours discussed the recent order of the pension bureau making old age an evidence of disability, and then passed the District of Columbia appropriation bill. The discussion of the pension order was based on the resolution offered some days ago by Mr. Carmack directing the committee on the judiciary to inquire into the authority of the executive branch of the government to make such an order. Mr. Carmack contended that no such authority exists, but several republican senators argued that the order was in line with the regulation issued by Judge Lochren, commissioner of pensions under Mr. Cleveland, fixing 65 years of age as an evidence of infirmity.

House—The sundry civil bill was before the house, but debate took a wide range. Mr. Gillett (Mass.) devoted considerable time to answering some of the statements recently made on the floor by Mr. Spight (Miss.) regarding the race question. He defended the president in inviting Booker T. Washington to dine with him and said the president was a man with a big heart as well as birth, breeding and cultivation. A strong plea for the tobacco growers was made by Mr. Trimble (Ky.), who urged the removal of the tax of six cents a pound on raw tobacco, in order that the producers might sell direct to the consumer.

H. R. RAND RESIGNS.

He Was An Assistant Superintendent in the Post Office Department.

Washington, March 29.—The postmaster general Monday accepted the resignation of H. R. Rand as assistant superintendent of the division of salaries and allowances of the post office department. The action takes effect immediately. Rand was appointed in April, 1902. During the postal inquiry it was charged that he was interested in the promotion of numerous speculative enterprises, mostly mining companies, and that he used his official position to induce departmental employees to invest in his schemes. The Bristow report failed to sustain the charges.

SAVED BOY FROM DROWNING.

A Few Days Later He Shot and Killed Him.

Janesville, Wis., March 29.—George Griffin, aged 13 years, son of Yardmaster David Griffin, of the Northwestern road, was shot and killed Monday by John Condon, aged 16 years. A little before he had made an attempt upon the life of another boy Richard Barry, Condon went to the Griffin home and without warning fired at Griffin, killing him almost instantly. It is said that Condon, who is the son of a saloonkeeper, was intoxicated. Last week he rescued from drowning the boy he shot down Monday.

THEY DIED TOGETHER.

Dead Bodies of Aged Man and Wife Found in Their Home.

St. Louis, March 29.—The dead bodies of John B. Altman, aged 68, and his wife Julianna, aged 47, were found in their home Monday, both having been asphyxiated by gas, according to their own prearrangement. Burdened by debts, advancing years and the recollection of a fortune vanished, are supposed to have led them to commit suicide. They left a note saying they had taken their own lives. In the cellar was found the dead body of their pet cat, which has been chloroformed.

THE IOWA MINERS.

They Failed to Come to An Agreement With the Operators.

Des Moines, Ia., March 29.—The representatives of District 13, of the U. M. W. of Iowa failed to come to an agreement here Monday and adjourned. The present agreement with the employers runs out Friday and a strike among the mine workers of Iowa is regarded as inevitable. The Iowa miners voted to strike at the recent referendum.

School Teachers on Strike.

Cartersville, Ill., March 29.—All the teachers of this city are on a strike. Miss May Winning chastised one of her boys with a strap with a braided end. The parents secured the teacher's discharge, whereupon the others walked out.

Six Out of One Family Killed.

Salem, Mo., March 29.—A cyclone has destroyed Samuel Wallis' house, 12 miles southwest of Salem, killing his wife, one daughter and four grandchildren and injuring Wallis and one daughter, the latter probably fatally.

Mme. Curie, famous as a female scientist and codiscoverer of radium, is 36 years old, and dresses without the least attention to fashion.

THE INDIANA FLOOD

Property Loss in The State is Estimated at From \$8,000,000 to \$10,000,000.

EIGHT LIVES HAVE BEEN LOST.

Bloomfield Shut Off From the World Except by Wire, No Mail Arriving For a Week.

Bridges and Trestles Were Swept Away By the Dozens and Others That Have Not Gone Out Are Dangerous.

Indianapolis, Ind., March 29.—Northern and Central Indiana, including the capital city, have seen the worst of the flood and are now repairing the heavy damages. Cities and towns at the headwaters of the Wabash and White rivers have only slime and mud left by the receding flood to contend with, but Southwestern Indiana has yet to see the worst. The crest of the flood will reach the Ohio river in two days.

White river at Indianapolis reached 17.7% above low water mark, a record height. It is estimated the damage in this county will reach \$2,225,000 and north of this county an additional \$1,000,000. In this city 1,200 families were driven from their homes. The city authorities resolved upon issuing \$100,000 flood bonds to repair the damage to the public utilities, but it is expected the loss in this one feature will be more than double that figure. Monday the city was almost entirely without traction service and water. It is expected the water works will partially resume Tuesday.

The Total Property Loss.

Eight lives have been lost in the Indiana flood in two days and the total property loss in the state has been estimated at from \$8,000,000 to \$10,000,000. Bridges and trestles have been swept away by the dozens. Others that have not gone out are dangerous. Railroad schedules are still wild.

At Madison, the county commissioners estimate the loss to bridges at \$40,000.

In Wabash county the loss is \$50,000, half of which is in the city.

Miles of streets are still under water at Peru, where the loss is \$100,000. The Howe factory will be closed for weeks, throwing 600 out of work. The pumping station is under water. Other factories have closed.

Bloomfield is shut off from the world, except by wire. No mail has arrived there for a week. The river is higher than ever before.

At Vincennes the river is rising two inches an hour. It is 22 feet deep. The Oaktown levee broke Monday night, flooding 10,000 acres. The first train out of Vincennes over the Evansville & Terre Haute road since Friday was run Monday.

At Charleston, Ill., bridges have been washed out and the city is in darkness. The water is the highest known. Reports from Bloomington say the loss in that county will be \$50,000.

SITUATION APPALLING.

The White River Above Petersburg Is Thirteen Miles Wide.

Petersburg, Ind., March 29.—The flood situation in this county is appalling. White river above here is 13 miles wide in places and 20 feet deep in the channel. Patoka river, which flows through the center of the county, is three miles wide for nearly 40 miles. Farms are under water, bridges and fences are gone, the soil washed away and much stock drowned. The loss is already \$250,000. The wheat is ruined. It is feared there will be two more feet of water, which will quadruple the loss.

Sullivan, Ind., March 29.—Gill township levee broke Monday afternoon and 20,000 bushels of cribbed corn will be washed away. Of the 18,000 acres which is flooded, 1,000 is in wheat, which will be totally destroyed and washed out by the roots. It will cost \$1,500 to repair the break in the levee, which is 100 feet long.

Evansville, Ind., March 29.—The Wabash river is rising rapidly at New Harmony. White river is sweeping everything before it and much stock has been lost. Hazelton is under water and the 40-foot stage will be reached. Capt. John Cornick, well-known steamboatman, fell from a towboat in Green river Monday and was drowned.

Terre Haute, Ind., March 29.—Taylorville, with 1,000 inhabitants, is deserted, the houses standing in eight feet of water. Charitable organizations are caring for the people.

Louisville, Ky., March 29.—The official call for the republican state convention was sent out Monday. A contract was closed for the use of Macaulay's theater for May 3, with the privilege of May 4.

MR. CORTELYOU and his Department of Labor and Commerce have had over a year now to get at the facts, but if they have run up against a single "bad" trust they are afraid to make it known.

A SOP TO THE TRUSTS.

There is an unwritten law that the President and the Cabinet officials cannot be interviewed, and no matter what they might say to any newspaper man they would not be quoted in the papers without their full and free consent. So, the conclusion is irresistible that Attorney General Knox sent for the representative of the Associated Press in order to say what he is quoted as saying the next morning after the Northern Securities merger decision was rendered. That interview was clearly a "sop" to the trusts. In order to allay the rankling feelings of the trusts over the merger decision, he gave it out in clear and unmistakable terms that this was to be the last fight of the administration against them and they might rest easy the balance of the year, or, for that matter the remainder of the time that Roosevelt occupies the White House or that Knox is the Attorney General. In the language of the Attorney General, the administration "does not intend to run amuck" with the business interests of the country. This administration has been endeavoring with might and main to get the people to believe that it was "agin" the trusts, but the decision of the Supreme Court, by a bare majority vote against the merger, was no doubt as much a surprise to the Attorney General as it was to the combine involved in the decision, hence he made haste to get to the trusts of the country with a disclaimer that they intended to pursue the matter further.

It is very unlikely now that the resolution recently introduced by the Hon. William Randolph Hearst citing the existence of criminal trusts all over the country and their oppression of the people and asking that a committee of the House of Representatives be appointed by the Speaker to investigate these trusts with power to send for persons and papers and administer oaths and report as soon as practicable, will ever be passed by a Republican House of Representatives. Mr. Hearst probably knew it would not pass when he introduced it, but he also knew that if it did not it would put the Republicans in a hole on the trust question where the public could view their real attitude on this matter.

PERSONAL.

—Mr. Edward Barry was in town Monday.
—Miss Garnet has returned from a visit at Cynthiana.
—Miss Ann Barry visited in the county Saturday and Sunday.
—Mrs. Jas. B. Claybrook entertained with an elegant dining Friday.

—Miss Olive Salmon, one of the county's faithful teachers, left Monday to take a special course of study at the Normal University at Valparaiso, Ind. She closed a successful term of school in the East End a few days ago.
—Lexington Herald: "Mr. Edwin E. Pearce is having a delightful trip in foreign countries visiting the most interesting places. When last heard from he was in Algiers, Sahara Desert. He is not expected home until the autumn."

CANDIDATE FOR CONGRESS

Will Not be Named at the Approaching Republican Convention in This City.

That dispatch from Vanceburg stating that the Republicans of the Ninth district would nominate a candidate for Congress at the convention to be held in this city April 26th was way off. The convention was not called for that purpose, and the candidate for Congress will not be named at that time.

The approaching convention will select two delegates, with alternates, to represent the district in the national convention at Chicago, and name a candidate for district elector.

The basis of representation is the same as that named by the State Central Committee. April 23rd is the date of the county conventions.

THE SUNDAY LAW.

What the Fayette Grand Jury Recommends For Enforcement of the Statute on This Subject.

In its report to the Circuit Court at Lexington last week the Fayette grand jury made this suggestion for the enforcement of the Sunday law:

The grand jury would further report that in its opinion the only effective method of enforcing the Sunday law in regard to saloons is by the prompt and persistent efforts of the city authorities; an indictment would only result in a fine against the offenders, which would be paid, and the violations of the law continued. But this jury believes that it is entirely within the power of the city authorities, if they so desire, to enforce obedience of the law in this particular, and that the Mayor and Board of Police and Fire Commissioners have it within their power to see that the law is obeyed. The grand jury recommends that the Board of Police and Fire Commissioners instruct the officers of each beat in the city to personally investigate and see that each saloon within his beat is closed on Sunday, and if found open to arrest the proprietor, or proprietors, of said saloon, and that the Mayor suspend promptly any officer failing to do his duty in this regard.

Painless extraction of teeth at Dr. Cartmell's.

Mr. Geo. Wallingford has repurchased the grocery he formerly conducted near Mitchell Chapel and will move back to Maysville this week.

The "Kentucky Historical Record" in a recent issue had an article on the "Lee family" by Miss Lucy Lee, of this city. It contained a good picture of the old "Leewood" home near Maysville.

The Schroeder property consisting of a residence on West Third, a residence on Forest avenue and a vacant lot adjoining was sold by Mr. C. L. Salles, trustee, Mr. George Schroeder being the purchaser. The total price paid was \$2,700.

It is expected that work on Maysville's public building will begin now in a short time. The department has in the last few days written to Postmaster Mathews for some information as to the electric power and water facilities. Practically all the other data has been in the hands of the architects for several weeks.

The suit of C. E. Ferguson against the trustees of the South Methodist Church at Paris for \$20,000 damages on account of the accidental drowning of his son in a cistern in the basement of the church was decided this week in favor of defendants. The jury exonerated the trustees and the church from any blame whatever.

The preliminary trial of Sam Price and Nat Geis on charge of attempted robbery is set for 2 o'clock to-day in the Police Court, but will probably have to be continued on account of the absence of the main witness, J. W. Kaincaid, a C. and O. engineer. Geis was arrested Monday morning by Policeman Senteney. He disclaims any connection with the attempted hold-up.

State Sunday School Evangelist Robt. M. Hopkins will deliver an address at the Christian Church next Saturday night, illustrated with stereopticon views, to which all Sunday school pupils of the city, as well as the public generally, are cordially invited. Mr. Hopkins will also speak Sunday afternoon to Sunday school workers, and preach Sunday night, illustrating his sermon with stereopticon views.

During the recent visit of the King of England to President Loubet of France, a moving picture was taken while the two dignitaries were entering their carriage at Vincennes, attended by a great crowd of the most eminent men of France. This picture was secured by Lyman H. Howe during his trip to Europe, and it will be shown with the others at the opera house on Friday, April 8th. The features of the King and the President are clearly shown, as clearly as if you were standing within a few feet of them. The careful preparations made to guard the lives of these eminent men are also shown. They are before the audience for several minutes, and this picture alone is worth going far to see. The difficulty in securing the picture makes it one of the most expensive Mr. Howe has in his collection.

DEERING MACHINERY and TWINE.

Read what a Mason County farmer says of his Deering Binder:

This is to certify that I bought a Deering Tongue Truck 8 ft. Binder in 1902, and wish to say that it is as far ahead of the old 6 and 7 ft. binders as day is brighter than night. In one day I cut 30 acres of heavy wheat, and without tiring my horses any more than cutting 15 acres with the old 6 ft. binder. It is perfectly free from neck weight or side draft and a pleasure to operate, elevating grain that the old small binders would choke on. Too much cannot be said in favor of this matchless labor saver. I can cheerfully recommend it to all my friends as the binder par excellence. Very truly,
CHAS. T. MARSHALL.

A HAPPY MOTHER

WEATHERFORD, TEXAS.
May 14, 1903.

Before my baby was born I was in great misery. I was just able to be about but just as soon as I began to take Wine of Cardui, which had been recommended to me, I felt much better. In fact I feel that if it had not been for this medicine I would not have been strong enough to live through childbirth. But that was made comparatively easy by taking your medicine for four months before baby came. Wine of Cardui restored my health as I took it two months afterward. I cannot speak too highly of Wine of Cardui and I am glad to endorse it.

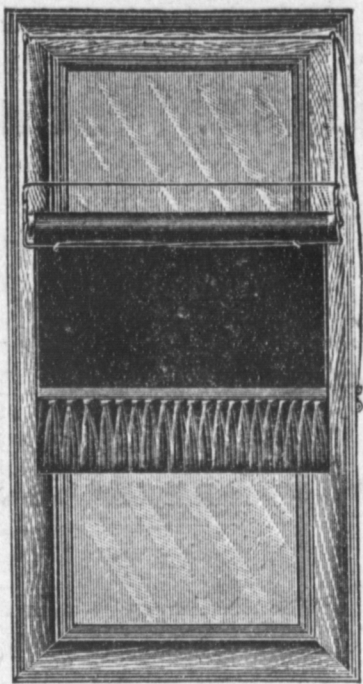

Mrs. C. E. Wood
TREASURER, YOUNG MATRON'S CLUB.

Wine of Cardui is a powerful tonic which acts on the generative organs of women, regulating menstruation and giving tone and strength to the organs which inflammation and weakness have affected. It cures nineteen out of every twenty cases of bearing-down pains or ovarian trouble. Wine of Cardui cures barrenness and aids the mother in conserving her strength for the ordeal of childbirth. After that event the Wine prevents dangerous flooding and helps mothers to quick recovery. Wine of Cardui is the one medicine a mother should use before and after childbirth.

All druggists sell \$1.00 bottles Wine of Cardui.

A GREAT INVENTION...

Think of it, all the fresh air you need coming in from the top of the window and the shade not in the way to keep it out or flopping to keep you awake at night. Then, too, you can dress with all the light you need from above and no one to see you from the outside. Try one and you will want your home fitted up with them.

PRICE OF FIXTURE 25c,

but when you buy your shade from us only 12½c., and we sell you the best shade for the least money of any store in town.

A LOTTERY SCHEME.

U. S. Officials Going After the "Mothers' Crushed Oats Concern For Alleged Violations of Federal Statutes.

Charles W. Jefferson, formerly a prominent retail grocer of Louisville, and at present representative of the Mothers Crushed Oats Company of Akron, O., was arrested by the United States officials Monday charged with being an agent for a concern that is promoting a lottery scheme.

In each package of Mother's Crushed Oats there is a coupon bearing one red letter of the word "Mother." The provisions of the coupon are that when purchasers procure coupons bearing the red letters to spell the word "Mother" they may mail them to the home office of the company, at Akron, O., and receive one of "ten handsome premiums" which are named and described on the circular containing the coupon. Each package of "Mother's oats" contains one coupon, and on each coupon is one letter of the word "Mother." The principle is claimed to be the same in effect as employed in the gambling game of keno, inasmuch as the purchaser takes chances on drawing the proper letter needed to spell the word "Mother."

The law under which the case will be tried is the act of March 2, 1895, providing for the suppression of lottery traffic through national and interstate commerce. District Attorney Hill said that every retail grocer bringing packages of "Mother's Oats" into Louisville or causing same to be shipped into any other State from Akron, O., can be held amenable to the law. The penalty prescribed under the statute is a maximum of two years in the penitentiary and a fine of \$1,000, or

both. Under the terms of the statute, any person may be held guilty who shall cause to be carried from one State to another any paper, certificate or instrument offering prizes dependent upon lot or chance.
